¹ From € 18,000,000 - ² More than 250 employees

Company description

GT Motive offers claims appraisal services or car maintenance operations to garages, insurance companies or car rental fleets.

Products and services

GT Motive has a database of vehicle models on the market, which makes it easier for its customers to assess the cost of a repair or maintenance on a vehicle.

Auxiliary services

Maintenance and services

Processes and technologies

They document vehicle models in their database and make it easy to query them through their software products (GT Estimate and GT Global).

Main customers

Insurance and car rental companies.
