Company description

SOGACSA (Sociedad Gallega de Carretillas) is an official distributor of Linde Material Handling forklift trucks and specialises in the sale and hire of material handling and storage equipment for use at ground level and at height, as well as spare parts and after-sales service. With a track record spanning 30 years, Sogacsa has established itself as a leading company in the material handling vehicle sector. It currently has two sites. The head office is located in the As Gandaras industrial estate in Porriño (Pontevedra), and the company also has another site in the Pocomaco industrial estate in A Coruña. Furthermore, it has a warehouse in the province of Lugo and technicians stationed throughout the region and in every major town in Galicia.

Products and services

Solutions and methods for the internal movement of goods, utilising both conventional equipment such as forklift trucks and tow tractors, as well as mobile robotics, AGVs and AMRs. The company offers financial solutions to undertake projects, such as equipment leasing services, maintenance and after-sales support. It provides all the necessary services and integrates them with the client's equipment to ensure a connected and traceable logistics flow.

Auxiliary services

- Automation and robotics
- Engineering
- Logistics and transport
- Maintenance and services
